Cites Increase as Proof of Growing Crime.

Rates on insurance against crime have skyrocketed during the administration of State's Attorney Robert E. Crewe, it was charged in political speeches delivered last night-by Judge John A. Swanson, who is opposing Mr. Crewe for the Republican numination

for state's attorney.

A further charge that the prosecutor has been proved unflit wits made
when Judge Swanson cited decisions

when Judge Swanson cited decisions of the Illinois Supreme court rebuking the conduct of prosecutors.

Judge Swanson, addressing the Englewood Business Men's association, called to their attention that Mr. Crosse, in a speech last week in Wilmetta, had declared there was less burgary and robbery per capita in Chicago than in Milwaukee, and that Milwaukee is halled as a crimeless city. Cites Rate Increases.

ortunately for the defenders of the present administration of the state's attorney's office, the insurance companies of the United States do not agree with the foregoing statement,"
Judge Swanson declared. "The average rate on burglary insurance in Mil-

age rate on burglary insurance in Mil-warkee is only \$9.08 for each \$1,000, whereas in Chicago it is \$20.63.

Three years ago fur stores and drug stores were required to pay only \$50 for each \$1,000 of burglary insur-ance. The rate is now \$100 for each \$1,000, an increase of 100 per cent. For each \$1,000 of insurance against loss by daylight robberies, furriers and engerists three years ago paid only druggists three years ago paid only \$10; now the rate is \$66."

Then Judge Swanson discussed in-surance against bombings, and charged Mr. Crowe had not even tried to ex-plain the bombing of the homes of his

Supreme Court Decision. Among the Supreme court decisions queted by Judge Swanson before the Austin Women's Voters' league was that in the murder case against Rus-sell Scott, as follows:

"We have had to reverse many cases coming from the Criminal court of Cook county for unprofessional conduct of the prosecutors there, and we have recently indicated that we will not hesitate to reverse judgments so

Mr. Crowe yesterday told the Inter-Racial council at the Sherman hotel hat the police and the state's attorney were valiantly warring against crime, but that jurors failed to convict someeven when presented with over-ming proof of a defendant's guilt.

The navy secretary held his seat, however, and listened while members denounced pacificts and during four liours of heated debate discussed virtually everything from flood control to Mayor Thompson's anti-British attack. During the afternoon Representative Britten [Rep., III.], attacked the pacifists for opposing naval legislation, engaged in a verbal duel with Representative Le Guardia [Rep., N. Y.], leader of the "little havy" group, end denounced leading New York newspapers for "supporting the British proposition rather than the American."

Resents Presence of Navy Officers.

Appearing as the guest of Chairman Butler [Rep., Pa.] of the house and affairs committee, Mr. Wilbur was not molested until Mr. Huddleston took the floor.

"This seems to be a naval holiday," the Alabama Democrat remarked as he gazed at Secretary Wilbur, and swept his hand toward the gallery, where Assistant Secretary of the Navy Robinson and several admirals were sented. "Evidently there are some members in this house who favor the British system where members of the cabinet are entitled to the floor in the house of commons, but the British law provides that such cabinet officers may be questioned and their presence therefore may be helpful.

"As a matter of fact, this country has nothing to fear. We do not need to build ships at this time. Who is there to fear now?"

"I'll tell you," interjected Britten, "it's people who talk like you that we have to fear. We fear the communists and the Socialists."

There was littis direct discussion of the terms of the bill itself, and indications are the measure will be passed tomorrow.

Federal Prisons Called 100 Per Cent Opercrounded

"It might be a good thing if our law were changed so that cabinet of-ficers might contribute something of wisdom on the matter under discussion as well as contributing by their handsome appearance. "It comes with poor taste," he asserted, directing his gaze on the divinutive Huddleston, "for any member of this house to criticize a member of the cabinet in this manner. Mr. Wilbur has a right to sit in this house. The rules allow him that privilege. It is a good thing for him to be here."

Bayreuth Wagner Festival

## Every Owner of Every Phonograph. should hear these amazing records

Covery owner of every phonograph, especially to those having the new electric reproducing phonographs, to all lovers of great music—admirers of Richard Wagner, immortal genius of opera—we present the greatest series of musical records ever offered.

Columbia has secured the exclusive privilege for all Wagner Festival Recordings, at Bayreuth, Gennaly, for a term of years. This year's recordings, just received, include selections from Parsifal, Siegfried, Rheingold and Walkure. The artists are: The Bayreuth Festival Orchestra conducted by Dr. Karl Muck, Siegfried Wagner and Franz Von Hoesslin; vocal parts song by Alexander Kipnis

Model 810-\$300

and Frits Wolff, with Flower Maidens, Valkyries, Rhinedaughters and Bayreuth Festival Chorus. These artists are of the greatest to be found anywhere in the world for the interpretation of Wagnerian

All records were submitted to and issued with the approval of Siegfried Wagner, son of the great composer and head of the Bayreuth Theatre.

No imagination is needed on the part of even the inexpert listener to recognize in these records the greatest effects ever yet achieved in recording and reproduction. They have been declared by experts throughout the world to "transcend anything previously attained in magnificence, beauty of tone, impressive singing, and absolute realism."

The series is enclosed in an eleven-pocket, handsome, gold embossed leather album suitably reinforced and is issued as Columbia Masterworks Set No. 79—\$16.50. Individual records may be obtained separately, \$1.50 each.

March Werst Month For This Trouble-How to Remove Easily

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine—double strength, from any drug or department store and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.

## The saving of \$3.00 and how you can employ it

## How times have changed—Now 25¢ is ample for a first-class tooth paste!

In Listerine Tooth Paste we have produced a delightful dentifrice that accomplishes results equalled only by tooth pastes costing 50c or more.

Such a price for such a paste is made possible only by the most modern manufacturing methods and mass production.

Its primary ingredient is a gentle new polishing agent which reduces brushing to a minimum and leaves teeth remarkably white and gleaming. The speediest tooth paste known!

Included also are certain ingredients that we, in our half century study of mouth troubles, have found to be most beneficial in helping to maintain a healthy condition of the mouth and gums. Also included for their refreshing effect, are the essential oils of Listerine.

The result is a tooth paste so pleasant and so effective that it wins most people at the first trial. Isn't it worth trying? Lambert Pharmacal Company, St. Louis, Mo., U.S.A.

Families who use Listerine Tooth Paste rather than costlier dentifrices, report an average yearly saving of \$3.00 per person. Many things sell at this price, for instance, cigarette lighters, handkerchiefs, next ties and women's hosiery.

Mr. Ernst Jacobson, President of United Public Utilities Company, summarizes as follows his letter descriptive of this issue, copies of which may be obtained from the undersigned:

United Public Utilities Company, a New Jersey corporation, owns, through stock ownership, control of operating subsidiaries furnishing public utility service to a centralized group of 49 communities in the territory lying between Dayton, Ohio, and Winchester, Indiana, and to a centralized group of 46 communities in North and South Dakota, and furnishing ice service in Mobile, Alabama, and to 9 communities in Louisiana, including New Orleans. Concurrently with presently proposed financing, the Company intends to acquire control, through subsidiaries, of additional operating properties furnishing electric light and power to 27 interconnected communities in North Dakota adjacent to the properties now controlled in that territory and ice in Anniston, Alabama. Upon such acquisitions electric light and power will be supplied to 26,636 customers in 122 communities and gas to 9,358 consumers in 19 communities. The combined population of the territory thus to be supplied with electric light and power and gas service alone is estimated to be in excess of 200,000.

The First Lien Bonds of the Company, of all series, in the opinion of counsel, are secured by a first lien on all outstanding bonds, indebtedness (except current indebtedness not in excess of current assets) and at least 95% of the capital stock of all classes of each subsidiary, as defined; the securities representing such outstanding bonds, indebtedness and capital stock being deposited and pledged with the Trustee under the Indenture.

\*Consolidated gross earnings of the Company and the operating subsidiaries, including properties prevently to be acquired, for the twelve months ended December 31, 1927, were \$3,331,173.97. Net earning after payment of operating expenses, including maintenance and taxes (other than Federal income) but before depreciation, were \$1,435,858.96, or at the rate of over 2.3 times the annual interest requirement on the total amount of these Bonds presently to be outstanding. Of such net earnings, approximately 70% was derived from the electric light, power and gas business.

All of the common stock of United Public Utilities Company is owned by United Public Service Company.

We have accepted as accurate the information and statements contained in the above men-tioned letter and summary, but this offering is made on the condition that no errors, omissions or misstatements in said letter or summary shall give rise to any right or claim against us.

# FINANCING AMERICAN INDUSTRY

9.B. Kleinert Rubber Company

FARLY in 1926 we sold an issue of 6% Serial Gold L Notes for the I. B. Kleinert Rubber Company. The purpose of this financing was not to furnish additional capital for the Company, but to consolidate the ownership through the acquisition of certain minority interests. It is interesting to note, in connection with this financing, that in every one of the last 36 years the Company paid a cash dividend on its Common Stock greater than the maximum annual interest requirement on this issue. In addition to this capital requirement on this issue. In addition to this capital financing, we are identified with the short term financing of the Company through the sale of its commercial paper from time to time to banks in all parts of the country.

"We consider The Tribune the backbone of our advertising effort in the Chicago." trading area—

Says Leorge M. Forman

Investigation of the coverage of the

Investment Banke

PRIOR to the World War the firm of George
M. Forman and Company, dealers in high
class investment bonds, had a large foreign
market for their securities in Scotland,
England, and the Netherlands. The World War
temporarily interfered with this market, so after
the war the company decided to cultivate Chicago
and the market surrounding it more intensively
than before.

They made extensive use of The Chicago Tribune, employing both daily and Sunday issues to advertise their bonds.

The intensive effort won quick and gratifying success. Sales mounted steadily. Branch offices were opened in many cities, both in and out of the Chicago trading territory.

Moreover, the initial gains now have become a steady rate of growth. City sales for the last six months of the year just closed showed a 24% increase in volume over the corresponding period of 1926; that year in turn showing a 32% increase over a corresponding period in 1925. Sales in the states surrounding Chicago increased in the same period during 1927, 42% over a corresponding period in 1926, and 1926 showed a gain of 50% over 1925.

During all this effort The Tribune was the backbone of the company's advertising in the Chicago territory. Since 1925 it has received 93% of the company's appropriation for Chicago newspapers. During the last year Forman and Company have used more than 15,000 lines in The Tribune.

"An Invaluable Medium for a Business Such as Ours"

George M. Forman and Company therefore is amply able to judge the worth of The Tribune as an advertising medium; and here is George M. Forman's opinion of The Tribune, formed during these years of rapid development: "Although we use local advertising in nearby towns outside

Chicago where we have sales representation, we consider The Tribune the backbone of our advertising effort in the Chicago trading area.

"We find, too, that The Tribune has a particularly strong coverage of the investor and banking class throughout the territory. It opens a vast market to our offers and is an invaluable medium for a business such as ours."

George M. Forman and Company's experience proves that Tribune advertising is a powerful factor in moving bonds—a commodity sold largely to the banking and investment class of the community. Yet last year Tribune advertising gave Spiegel's the best spring in their history, selling furniture largely on the installment plan. The Tribune is practically the only medium used by Lebolt & Company for advertising pearls and other jewelry to people of ample means—while Calumet Baking Powder finds it the most efficient medium in the territory for reaching housewives who do their own baking. Whether it be washing machines or Paris frocks—automobiles or face powder—The Tribune pays out best.

Such universality of appeal can have only one explanation—that The Tribune reaches every type of worth-while buyer, and reaches more of each type than any other medium in the territory. The circulation and coverage figures bear this out.

#### Why The Tribune Is Chicago's Best Advertising Medium

Every day The Tribune circulates over 794,000 copies. On Sundays The Tribune's circulation is 1,169,178—reaches from 20% to 90% of the families in 1,312 towns and cities in Chicago's five-state territory.

Such circulation means that The Tribune reaches more buyers than any other Chicago paper. Naturally it produces with maximum efficiency for any legitimate commodity or service.

A Tribune man will be glad to discuss ways of using the power of Tribune advertising in your business. Send for him today!

#### Woman Is Advised to "Get Her Man," but to Do It Subtly

BY DORIS BLAKE. In a recent address Dr. Frederick Lent, president of Elmira college, sug-gsted that there is no good reason rock," at St. Via-

gsted that there is no good reason why a woman who wants to get married should sit quietly waiting until some man—probably the wrong one—lays siege to her heart.

Dr. Lent believes that women are as well qualified to pick their mates as men and frankly advises them to do so. Bays Dr. Lent:

"A woman had better never be married if to do so she must tie her self to a man who is her interior. There are other ways of being useful and happy. Women are the strongest. Woman holds the place of power, the supreme place in the world. It was so in biblical days. The first woman, Eve, was a real person. Beside her Adam is coloriess. It was she who took the initiative and led Adam by the nose."

Tock," at St. Vlator's auditorium, Addison street and Kedvale avenue. The comedy will be repeated on Monday and Tuesday evenings. The receipts of the three nights' performances will be turned over to the church's various philanthropies. Miss Gad Hinske, a young amateur player of considerable promise, will appear in the play. Other men and women going through these same experiences would suffer intensely from the pain itself and the anticipation of it. People vary greatly in their sensitiveness to pain. This was illustrated clearly in the world war where some young men came through agonies with their nerves unscathed, while others were received by the same sort of wound

grownups in their reaction to pain.
Some actually are not hurt as much
by the same injury as others. So in
teaching our children to bear pain
bravely we must keep this in mind.
The temperament, the nervous organ-

The temperament, the nervous organism, have a great deal to do with the way a child acts when he is suffering. Pain is much more of a shock to some children than to others.

A little child who falls and bumps his head and doesn't cry is not necessarily braver than one who does cry. The boy or girl who goes through things without a whimper is not necessarily a better sport than the one who becomes wrought up ever them. He or she may be what we call "thicker skinned."

Of course we want our children to learn to bear pain bravely—not make a fuss over little hurts. But let us be sparing of remarks like, "See how brave Bill is—he doesn't cry when he's hurt." Bill may be entirely different in his reactions—he may be less sensitive to pain.

one fringed gentian plant where one hundred once grew, according to Mrs. Louis B. Lemon, who is an authority on wild flowers of the Chicago region.

Fringed gentian and the barrel or closed variety of gentian are both protected by law in Illinois. Both varieties bloom late in the season along the out of the way meadowy tracts and marshes, says Mrs. Lemon, 5737 Blackstone avenue, secretary of the Wild Flower Preservation Society of Illinois. She says the fringed variety is remarkable because of its misty, delicately shaded quality of color, which runs the scale of elusive blue tints. The vase shaped flower is deeply fringed.

Will flower gardeners find that

Wild flower gardeners find that fringed gentian is scarce, but is a blennial that can be grown from seed. It has been reëstablished in some eastern and southern places, and can likewise be grown here in the middle west. It only makes a rosette of leaves the first year, but flowers from August to October the following year. Gentian is not killed by early frost; the seeds may be gathered in November, and should be planted at once, says Mrs. Lemon.
